

«metaClass»  
**UMLClass**

```
graph RL; S1[«stereotype» control] --> UC[«metaClass» UMLClass]; S2[«stereotype» entity] --> UC; S3[«stereotype» boundary] --> UC;
```

The diagram illustrates a UML class hierarchy. On the left is a large, light-gray rectangular box representing the **UMLClass** meta-class. To its right are three smaller white rectangular boxes, each representing a stereotype. Arrows point from each stereotype box to the right side of the **UMLClass** box, indicating that these stereotypes inherit from or specialize the **UMLClass**.
